**LE MODEL**—Olani Durrant examines a scale model of Glen Canyon Dam being featured in the Civil Engineering Dept. exhibit. During the week all phases engineering activities will be demonstrated through model and other exhibits.

Week...

## Engineers slate tours

vs Bureau

of America's largest professions is being honored at BYU.

Electrical, chemical, civil and mechanical engineers are spotlighted during National Engineering Week, traditionally observed in the week of the birthday of George Washington, who himself was an engineer.

**NCE WASHINGTON'S DAY**, engineers have played a role in building America.

Large displays to depict the latest feats of engineering exhibited on Friday and Saturday in the Fletcher Engineering Bldg.

**ELECTRICAL ENGINEERING** exhibit will feature electronic brain, acoustical devices, data processors and computers and microwaves.

A small scale oil refinery in operation will be the centerpiece on the chemical engineering display.

## 's to exhibit el of dam

Note—The following article was by members of the Civil Dept. in connection with a week.

An effort to better acquaint the public with the various phases of civil engineering during Engineering Week, the civil engineering department have constructed a model of Glen Canyon

Dam is currently under construction by the Federal Government near Page, Ariz. The use of this model supporting exhibits, use of civil engineering demonstrated.

**VISITOR** will become acquainted with the various studies, the site selection investigation, design problems and technical quality control, structural problems and design techniques of the more dynamic demonstrations will indicate the necessity of the design codes which are used by local and national engineering organizations.

**SCALE** models of a very building have been derived from identical models. One has been developed to withstand earthquake on page 3.

## M. E.'s to feature fluid coupling

A tour of the engineering facilities and exhibits Friday or Saturday will feature contributions of the Mechanical Engineering Dept.—an automobile fluid coupling in operation, and a plasma jet.

Explaining the display, Steve Clark, publicity chairman of engineering week said that nearly all modern automobiles are equipped with a fluid coupling or torque converter for smooth power transmission. The students have constructed one for display," he said.

The oil refinery, located in the southwest wing of the Fletcher Engineering Bldg., will be in operation. It displays a bubble cap distillation column, and several extraction columns.

**A PROJECT** derived from the study of heat transfer, the plasma jet, will also be shown.

"High temperature research is becoming important in the missile industry. New heat resistant materials are being developed for use in rocket motors and nose cone protection for reentry into the earth's atmosphere," Clark said. "The plasma jet is invaluable in this research as it can produce temperatures in excess of 10,000 degrees Fahrenheit," he reported.

Support for research is provided on page 3.

## Envoy to speak at Monday forum

"America will maintain its world leadership because its way of life upholds the dignity of man."

This is the view expressed by Gen. Carlos P. Romulo, who will be the guest speaker at Monday's Forum assembly.

This will be the second time the Philippine diplomat has addressed BYU Forum audiences.

**IN OCTOBER, 1959**, Gen. Romulo told the Provo audience that the world leadership enjoyed by the United States for over a decade is being seriously challenged.

"More than a billion Asians are not with America in its life and death global struggle against Communism," he warned.

**THE 61-YEAR-OLD** envoy served as Gen. MacArthur's aide-de-camp in Bataan, Corregidor and Australia during World War II. He accompanied the liberating forces in the invasion of Leyte and later in the recapture of Manila. Mr. Romulo rose to rank of brigadier general in the United States Army in 1944.

Gen. Romulo served as president of the Fourth General Assembly of the United Nations in 1949-50.

**In 1954**, Philippine President Ramon Magsaysay appointed Gen. Romulo the Philippine special and personal ambassador to Washington.

**COUGAR ASTRONAUT**—BYU guard Ron Steinke (23) goes into orbit with one of the patented jumpers which helped BYU drop Montana 80-66 Thursday. Watching the blast off are Cougars Bruce Burton (43) Bill Edmenthal (55), Grizzlies Ray Lucien, Tim Aldrich (31), Gary Batchelor (25) and Jim Kelson (33). Running on left is Dan Sullivan, MSU.

## BYU blastoff kills Montana

by Alf Fratte  
Universe Sports Editor

Astronaut John H. Glenn, Jr. wasn't the only one who was hurled into orbit this week. The BYU Cougars finally made it too!

After months of false starts the fizzleless Cats picked up some super-power fuel and roared back from their dressing room launching pad in the second half to drop the Montana Grizzlies

(Continued on page 6)

## New dean of students joins staff

Y News Bureau

J. Elliot Cameron, dean of students at Utah State University, has been appointed dean of students at BYU, effective July 1. It was announced by President Ernest L. Wilkinson.

Areas under direction of the dean of students at BYU include academic standards, Counseling Service, counselor for women, foreign students adviser, Indian students adviser, special student problems, Student Health Services, student organizations and university standards.

Mr. Cameron will replace Dr. B. West Belpair, professor of religious education, who has served as acting dean of students.

Mr. Cameron received the B.S. and M.S. degrees at BYU in 1949 in educational administration, and has worked toward the doctoral degree at University of Utah and BYU.

From 1948 to 1956 he served as a teacher in Alpine School District, high school principal in Duchesne and Sevier School Districts, and superintendent of

school in Sevier District. He was director of Snow College, 1956-1958, and was appointed dean of students at USD in 1953.

He is a member of numerous professional educational societies and has been active in several communities in the March of Dimes, Chambers of Com-

merce, Lions Club, Kiwanis Club and Boy Scouts of America.

He is a member of the East Cache LDS Stake High Council and was formerly president of South Sanpete Stake. He married the former Maxine Petty and they have four children.

World news flashes...

## Student revolt crushed

**ANKARA, TURKEY (UPI)**—Turkey's armed forces, supported by tanks, today crushed a brief uprising by 8,000 mutinous cadets and troops of the Ankara garrison.

Armed students and officers from the war school and tank school staged the rebellion last night because of dissatisfaction with the three-month old coalition government. They demanded changes in the constitution and the abolition of parliament or the dismissal of 200 "undesirable" deputies.

**WASHINGTON (UPI)**—The mounting conflict between Soviet Premier Nikita Khrushchev and the West over how to open next month's disarmament talks threatens to sabotage the conference before it begins.

President Kennedy last night authorized the State Department to publicly reject a tough new Khrushchev demand that the 13-nation Geneva conference on arms control open with a summit session.

The Department said Kennedy stood by the proposal he and British Prime Minister Harold Macmillan had made to begin the Geneva talks at the foreign

ministers' level. They promised to consider a summit meeting later if progress warranted.

**GENEVA (UPI)**—The Soviet Union's sudden agreement to include the question of a nuclear test ban in the 13-nation disarmament conference was viewed by Western diplomats here today as an attempt to wring maximum propaganda out of the meeting.

The diplomats saw no substantial change in the Soviet position on a nuclear test ban. They pointed out that Soviet Ambassador Semyon K. Tassarkin, who announced the Kremlin's decision yesterday, stressed that any discussion of nuclear tests must proceed on Russia's terms.

**DAVIDSON, N. C. (UPI)**—Secretary of State Dean Rusk told newsmen today he felt too much debate and propaganda had been given to the forthcoming talks at Geneva on nuclear disarmament.

He told a news conference he hoped the arms race could be broken and that the principles of "flesh and blood" could be brought to bear in the Geneva talks.

J. ELLIOT CAMERON

Special report . . .

# Classrooms designed to their subject needed in our schools says Y professor

There is a great need for academic classrooms in today's schools and now is the time to build them.

It is the thesis of a special report written by Dr. Glen F. Byrum, associate professor of school administration, for January "American School Journal."

**REVIEW** of the literature in the field of school planning leads to the conclusion that in important academic areas classrooms represent the heart of school planning; i.e., planning, Dr. Ovard believes.

In classrooms are discussed are usually grouped under the nebulous term of "General Purpose Rooms," he contends. These classrooms are crowded, school programs, and must then adapt to "flexibility."

**ACTIONS** performed in teaching processes and learning activities are not identified, Dr. Ovard believes. Academic classrooms suited to a particular teaching activity for which they are to be used, he contends, are constructed apart for at least four reasons, Dr. Ovard.

One of the areas of school planning, the idea that planning

based on functions to be carried out is a relatively new concept.

**SECOND**, the typical academic classroom has a long tradition, designed to provide mass education with few materials. The obvious learning activity then was recitation, said Dr. Ovard, but times have changed.

Materials are abundant and new teaching techniques have been introduced. The traditional lecture-question-answer method is no longer the only way to teach.

**THIRD**, THERE has been some planning especially in the vocational and technical areas. Of the curricula in which functional planning has taken place. But this planning assumed that one could demonstrate with a single teaching machine or shove a large group of students, continued Dr. Ovard.

"Expensive classrooms and facilities could then be eliminated, and the lecture-question-answer technique established as the activity around which the facilities would be planned."

The high cost of constructing classrooms with facilities based on functions was listed as the fourth reason.

**IN CONSIDERING** the reasons for planning better academic classrooms in the future, Dr. Ovard cited:

territorial. Two clubs operate within the prison. The Gavel Club is the rival of the Ambassadors group and is the object of many friendly "digs."

**INTEREST** in public speaking developed by the Ambassadors Club led members to enroll in a Dale Carnegie course. Thirty-two graduated during the first weeks of January.

After a riot, Utah prison officials requested the introduction of the Toastmasters program. It had been used very successfully in Massachusetts. A representative from the California penal system worked with the YMCA of Salt Lake City in getting the clubs in operation. A dozen penal institutions over the U.S. have such organizations.

Since 1956 when the program was established 800 men have become members and then left for the outside. In addition to furthering proficiency in simultaneous speaking, the club provides employment, education and association with others, enabling the members to adapt more easily to life outside.

**TESTIMONIALS** from members run:

"The club helps to improve my personality, make up for character deficiencies and make better adjustments to social problems. It helps me understand why I'm in here."

A four-year member said, "At first I couldn't get up in front and speak. After five months I could."

**ANOTHER** said, "before I joined the club I couldn't talk at all in public."

One explained, "We drive for self-betterment in public speaking and in preparing ourselves for the future. We do some good here and are not hardened and embittered criminals, as seems to be the common prison outside."

**MANY** OF THE prison toastmasters are interested in jazz, yet the club can find no speaker well-informed in that field. They would welcome a jazz specialist, said one toastmaster.

This interest in jazz will be channeled into a demonstration during the "Felon Follies," a talent show the first and second weekends in March.

Donations from the show which is open to the public will go to the inmates fund used to provide facilities for the chapel and other prison accommodations.

"By law in most states, a minimum of one half of the student's time is spent in the academic areas of English, social studies, math and science." It is evident that proper academic facilities must be provided.

Second, the present world crisis demands that Americans have an increased understanding of science and mathematics due to competition with communist states; a greater understanding of world governments; an increased emphasis on leadership of qualified individuals.

**THIRD**, it is false economy to omit facilities which reduce the effectiveness of the basic instructional program.

Fourth, the physical facilities of a classroom should be such that they can carry out new learning processes and activities as discovered by the science of psychology and technology.

## Theft ring apprehended

A ring of seven BYU students, who were involved in a series of thefts in an area from Salt Lake City to Nephi, has been apprehended, according to Utah County Sheriff Ralph Chapline.

Three members of the ring face charges of second degree burglary in Fifth District Court in Nephi. Two of this trio and another member of the group are charged with petty larceny in Pleasant Grove.

## On campus . . .

### Record hop set Friday at Cannon

Lynn Bryson and his records will be featured Friday at 8 p.m. in Cannon Center.

The event is a record hop sponsored by the Central Dance Committee, Milton Barnes, Central Dance chairman, said, "We hope to see a big crowd."

Your date situation is irrelevant as the dance is stag or drag. Admission will be 25 cents. This is your opportunity to meet your date for the Babal Bounce, Saturday night, he said.

## Office candidates

The first meeting for candidates seeking class offices expects senate positions will be held Monday at 5:15 p.m.

Its location will be announced in Monday's Universe.

Attendance is essential, according to Leckie-Fillmore, elections publicity chairman.

Election rules, requirements for holding offices and the school Constitution will be discussed, she said.

## Get new license plates

Home state license plates must be renewed at the time they are required to be renewed in that state. Out of state licenses are not good in Utah after home state licenses have expired.

Local Police have listings of state renewal dates, and any drivers with license plates that have expired will be stopped, according to Captain Nielsen, Security head.

## C. E. exhibit

(Continued from page 1)  
quakes while the other is not. When these two models are subjected to the motion of an assimilated earthquake the results are quite startling.

Also planned for the interest of the visitor is a demonstration in the various techniques and advances that are becoming prominent in the field of concrete design. As a graphic example of the many uses for prestressed concrete, there will be a full size prestressed concrete fence erected. The advantage of such a fence is that very little upkeep is required throughout its lifetime.

Fence posts of this design can be driven into the ground much the same as steel posts.

## M. E. exhibit

(Continued from page 1)  
vided by industrial concerns is the interpenetration sensor.

**CURRENT PROJECTS** include the study of properties of materials subjected to repeated loading, the study of optical methods for examining the flow of gases through a rocket nozzle. They also include the study of drag forces in small metal particles accelerated by an electromagnetic field and the study of thermal properties of rocket nozzle materials when subject to high temperature gas streams.

The department will complete an instrument this semester for measuring the density of gases in flow fields such as rocket nozzles. It will contain 12-inch diameter mirrors so precisely ground that the cumulative error in flatness is less than one fortieth the wavelength of light or about two one-millionths of an inch.

## Guests visit at prison

By Williams

The Staff Writer

Recently, intelligent men in light blue uniforms welcomed guests, including YU students to their Gavel meetings.

**STAYS FROM** the "outside" are then non-members of the club. They are people from the "outside" - from life behind concrete walls of the Utah Prison.

posts of Worthal, Louise Lush and Professor Snarf.

A total of 18 nominees were voted for, including four Louise Lushes, five Snarfs and nine Worthals.

The winners of the contest will be revealed at the annual Bibler Bounce which will follow the Utah-BYU hoop fracas Saturday night.

The Bounce will feature Benny Knudsen at the east gym of the Smith Fieldhouse and Bill Hanson in Cannon Center. Admission is 50 cents a person and dress "sporty."

New candidates added at the last minute yesterday are Dr. R. Joseph Monsen for Professor Snarf, and Darrell Cook was added to the Worthal hopefuls.

'Lover Come Back' ...

### Comedy tops movie list

by Jan Loveless  
"Lover Come Back," a delightful comedy, has come to Provo. This entertaining movie stars Doris Day as a naive career girl in the advertising business who finds that Rock Hudson, the great charmer, is a very versatile competitor.

Tony Randall, normally as the straight man to Rock Hudson's humor, came up with a few of his own antics.

THIS SHOW is recommended for adults and teenagers as an entertaining, fun movie.

Other FTA recommended movies for the weekend are: Provo—"Lover Come Back," recommended for adults and teenagers.

"Pinocchio," recommended for the family.

"Devil at 4 O'clock," recommended for adults and teenagers.

Orem—"Bachelor Flat," recommended for adults and teenagers.

Springville—"Grey Friars Bob by," recommended for the family.

PEP PROMOTERS—BYU's five songleaders get together before a game to discuss the routines they will use. The song-

leaders are, from left, Ellen Croff, Marland Jackland, Julie Bagley, Carol Rawson and Marilyn Johnson.

Embarrassing moments ...

## Songleaders tell of fun at games

With royal blue uniforms, fluffy white pom poms and snappy routines, the BYU songleaders will again lead the student body in pep activities at the University of Utah-BYU game Saturday night.

Being on the basketball floor in front of approximately 10,000 fans doesn't seem to bother these enthusiastic coeds. Although they confess they are often very scared, they say they are usually more worried about being hit by a twirling flag, which routine goes with which song, why the referee is scowling at them or what to do about the ball player standing in front of them when the routine calls for a waist-high kick.

THROUGHOUT the year the pep promoters practice at least three hours a week which increased to a daily practice the week of a game.

Despite this preparation they have had their embarrassing and comical moments.

Ellen Croff, a junior from Alhambra, Calif., relates the time when the fellows presenting the U.S. flag were so determined to keep a straight line that they walked right into her. "The next time they carried swords, so I moved!" she said.

A clothing and textiles major from San Gabriel, Calif., Carol Rawson, remembers the surprise she had while doing a routine when she ended up with a basketball instead of a pom pom. Miss Rawson won the AWS Miss Collegiate contest this year.

THE NEWEST members of the group is Maryland Jackland, a sophomore elementary education major from Norwalk, Calif. She replaced Tamara Ashby in January. Maryland had the task of learning all the routines in less than a month.

When asked how she felt in her new position, she replied, "All I have time to think about

### Social units to hold exchange

The Brigadier and ToKalon social units will have an exchange Monday evening.

FOR THE main part of the party, they will attend the Four Freshmen concert, to be held in the Smith Fieldhouse.

After the concert, the couples will go to the homes of several of the ToKalon girls for refreshments and activities.

The exchange is one of several which the social units hold throughout the year.

is ... smile ... keep in line ... remembers the next stop ... be peppy ... and, oh yes, ... smile!"

Her most embarrassing incident was when on the way to a game one night she stepped into a mud puddle and had to songlead the entire game with one black tennis shoe.

WHEN HEAD songleader Marilyn Johnson was asked what she thought about while doing the routines she laughed, "I just keep my fingers crossed hoping that my end of the line is doing the same routine as the other end of the line."

Miss Johnson, a junior history major from Las Vegas, Nev., is also president of O. S. Trovata

and secretary of the class.

Julie Bagley related her embarrassing experience to happened when her home newspaper first announced she had been chosen songleader everyone thought she was new chorister for all of the class.

Miss Bagley, a junior Star Valley, Wyo., has a posite major in speech, education and journalism. She received the Y this year as coming Queen.

To climax this year's leading activities these five will travel to Denver in one week to add their le and enthusiasm to the gars' final game with De-

Heindselman  
Optical and  
Jewelry Co.

PEARL SMITH

## Lovely lady

by Gloria Hall  
Universe Staff Writer

"Smile and the world will  
smile with you!" This statement  
is true of Pearl Smith, super-  
visor of the Cougar snack  
bar.

Pearl Smith has been super-  
vising the snack bar for more  
than four years and is devoted  
to her work, employers and the  
customers she serves.

SHE IS THE kind of woman  
who loves people. She has four  
children of her own and 15  
grandchildren.

Mrs. Smith was born in Phy-  
lomis, Ga., where she lived for  
14 years. Then she moved to  
Springville, where she finished  
school.

While attending Springville  
High School she met Fred  
Smith and married him in the  
Salt Lake Temple on her 18th  
birthday.

"I've been married for 34  
years to the most wonderful  
man in the world," she stated.

GROOMING—Eyes sparkle when you think lovely thoughts,  
but eye make-up properly applied, can add extra beauty to  
them. Louise Eggen demonstrates one of the quickest ways of  
applying eye cosmetics. Photo by Melv Lerwill

level this always keep the strag-  
glers plucked that grow outside  
the natural boundaries of your  
brows. After plucking, apply  
pencil or mascara to groom the  
brows as you desire.

LARGER, brighter eyes can  
be had by following a few sim-  
ple tricks. Carefully underline  
your lower lashes with a soft  
eyebrow pencil. Then gently  
smooth it over with your finger-  
tips so the line won't appear  
too very sharp.

Use two shades of mascara,

light and dark. First, coat your  
lashes with the light shade.  
After this dries, brush the dark-  
er shade on the very tips of the  
lashes.

For daily sparkling eyes an  
eight-hour sleep is nature's best  
treatment. Don't overstrain your  
eyes. Read in a good light, re-  
lax your eyes occasionally while  
studying, and avoid the sun's  
glare by wearing sun glasses.

And remember, too, any spar-  
kle in your thoughts will be re-  
flected in your eyes.

## Units gather

Have you ever strolled down  
the promenade deck of a Miss-  
issippi River Steamer with a  
lively Southern belle holding  
tight to your arm? Or have you  
ever pictured yourself in the  
elaborate ballroom of such a  
River Palace?

MEMBERS of the Tokalon  
and Viking social units have  
invited their favorite guys and  
gals to share just such an event  
this Friday evening. A "Ri-  
ver Palace" is the theme of dec-  
oration and activity planned for  
members and guests of this  
combined Invitational.

Guests, in their formal attire,  
will be greeted at the top of  
the gangplank by the Presidents  
of Tokalon and Viking social  
units. They will be ushered in-  
to the luxurious ballroom of  
the River Palace.

THE BALLROOM will be  
complete with dining area, mir-  
ror chandeliers and orchestra.  
On the walls of the ballroom  
will be giant shadowboxes de-  
picting various scenes typical  
of those seen along the banks  
of the Mississippi.

Appropriate refreshments will  
be served during the evening  
and a special program is pre-  
pared to entertain the guests;  
Southern style.

## 2nd half orbit steps 'Tips

(Continued from page 1)  
89-66 before 6:50 of the Fieldhouse Thursday night.

It was the fifth Skyline victory for the charged Cats who dropped Montana earlier in the year at their first meeting in Missoula. But for a while last night it didn't look as if the Cats would even get off the ground.

Blast off time didn't occur until the start of the second half when BYU trailed 33-30. However, with astronaut Ron Steink starting the countdown with two long jumps the Cats were ahead 34-33 in one-half minute.

WITH 2:07 gone the Cats had charged into a 38-33 lead and never had to look back again.

Steink's jumps and three free tosses tallied 19 for BYU high-scoring honors. He was trailed by Jim Kelson with 18 and Bruce Burton who added another 10.

Then combined efforts were only overshadowed by the one-man attack of 6-7 center Steve Lowry who walked off with high scoring honors with 30 points.

The majority of the Red Lodge, Mont., native's baskets came in the first half when he netted 21 points before being called out for "elbow trouble" by Coach Frosty Cox.

**LOWRY'S ABSENCE** cooled off the 'Tips and they dropped a Montana lead which stretched as far as 28-19 with minutes to go.

Lowry finally fouled off with 1:42 to go in the fourth which saw 28 fouls called by the officials. Burton also fouled off in the final quarter and was replaced by Lloyd (the Gentleman) Johnson who finished off with a satisfying seven points for eight minutes of play.

**TM ALDRICH** followed Lowry with 16 and Dan Sullivan had another 14 for Montana.

All students interested in trying out for the BYU golf team are asked to meet in the west end of the Smith Fieldhouse Friday at 3 p.m., according to coach Karl Tucker.

All tennis candidates will meet for a short meeting Monday at 10 a.m. in 309 Smith Fieldhouse.

MSU captain Bob O'Billovich had a disappointing four and Ray Lucien two for the 'Tips. **GUARD GARY** Batchelor added another 12 to the Cat cause and Bill Blumenthal chipped in with eight.

**BYU NOW** has five wins and six losses and will meet the University of Utah in its final home game.

Ho hum...

## Kittens steamroll Carbon 86-69

The pace slowed down somewhat, but the outcome was the same as the BYU Kittens rolled to another victory last night.

This time the final score was "only" 86-69 over Carbon College, some 14 points below the freshmen's average for the last five outings.

**ONCE AGAIN** it was a well-balanced attack that assured the Kittens their eleventh victory in as many starts. Paul Millar led the way with 20 points, mostly on his angular jumper from about 25 feet out.

The Gardners got their share as usual, with Mike netting 19 and Joe 14. Bob Quinney had the "worst" evening of his young career, as the Carbonites held the slick forward to 17 points.

**LOU ANDRES** set out the entire game with a liver and spleen infection Coach Pete Witbeck indicated that the color-center should be ready in time for Saturday's all-important Utah Papoose clash.

Kent Butler accredited himself with a steady performance, as he was chosen to fill in for the ailing Andres. Butler totaled seven points and was good for some valuable rebounding.

### Coebs set sportsday in East Gym Saturday

BYU Women's Physical Education Dept. will play host to seven universities and colleges from the intermountain area, Saturday as basketball for coeds is featured in the Sportsday to begin in the east gym of the Fieldhouse at 9:30 a.m.

Schools scheduled to attend are Utah State, University of Utah, Westminster, Weber, College of Southern Utah and Idaho State.

**CHAIRMANING** the day's events is End Ennis, with Karen Evans, hostesses and officials; Linda Rohbock, scheduling; Kathy Medley, lunch; Dona Nelson, program; Bev Blossomgame, registration, assisting on the committee. Adviser for the activity is Elaine Michels.

For the junior collegers from Price, Bob Powell was the biggest thorn in the Kittens side, and the game's top performer with a whopping 30 points before he exited per fouls in the waning minutes of the contest. He was joined by Steve Smith with 12, and Ron Blaser, who had nine.

**THE KITS** relaxed the usual house-of-fire brand at times throughout the but Carbon was never at take advantage of it. The best they could come was in the first ten minutes of the contest.

# Utah alums meet benefit hoop game

On  
Sports Writer

basketball players of  
from BYU and the  
of Utah will meet  
in a Cancer benefit  
the Smith Fieldhouse.  
is 8:00 p.m.

NG the cast of all  
who was named to  
Little All-American  
65-58.

fans will see Hersch-  
ons" Pederson, who  
points in his college  
floor general of the  
NIT Championship  
rolf Christensen, and  
Dick Jones and Russ  
ill boost the Brigham  
nni.

Anderson, in addi-  
ing a two year all-  
player, holds the  
cord of "the longest  
hook shot ever  
the fieldhouse." He  
chance to break the  
rch 3.

ewis can be expected  
ords with his two  
shot; Harry Ander-  
the fans a fast

stars playing for the  
will be John Benson,  
ing of the 1957 Sky-  
eam; Ed Pinegar, all-

conference player, 1954-56; and  
steady Van Burgess, 1955. Lynn  
Rowe, Stan Collins, Pad Kit-  
chen, and other past BYU stal-  
warts will also be ready for ac-  
tion.

**UTAH WILL FACE** the Cou-  
gars with 6-10, 250 lb. Pearl  
Pollard. Pollard, an All-Skyline  
center, will be aided by the  
great Jerry McGeary and  
speedy Curtice Jensen.

Mac Buckwalter, Gary Hale,  
Rich Ruffell, and Joe Morton  
will bolster the Redskin forces.  
Billy Maxwell, Jim Thomas,  
and Dick Shores will be pres-  
ent; as well as John Crowe and  
Bruce Goodrich.

**THE REFEREES** for this  
contest, Joe Nelson and "Jump-  
in" Joe Uight bow to no one  
in hoop circles. Nelson revolu-  
tionized driving under the bas-  
ket; Weight was also an all-  
conference player.

According to Ed Pinegar, star  
for BYU, and Cancer Fund pub-  
licity man, the Cougars have a  
good chance of winning. Many  
Cat stars have kept in shape  
playing M-Mon basketball.

**UTAH PLAYERS**, on the other  
hand, haven't been relax-  
ing in their easy chairs. Ruffell  
and Morton, for example, ball-  
hawked for the Skins just last  
year. The giant Pollard looms  
as a rough starter.

Tickets for the battle of the  
giants will be \$2.50, reserved  
seats; \$1.00 general admission.

## Canadian pros ink Paul Allen

Paul Allen, BYU wingback,  
has signed a professional foot-  
ball contract with the Vancou-  
ver Lions of the Canadian Foot-  
ball League.

**TERMS** of the contract were  
not announced, but the former  
Cougar star reportedly received  
a bonus for signing with the  
Lions.

Allen thus becomes the sec-  
ond BYU senior to sign for pro-  
fessional ball. Earlier in the  
year Kent Horne, 225-pound  
tackle, signed a pact with the  
Philadelphia Eagles of the NFL.

**LAST SEASON** Allen led the  
nation in kickoff returns, re-  
turning 12 kickoffs 481 yards  
for an average of 40.1 yards  
per attempt.

The Pleasant Grove senior also  
let the Cougars in scoring.  
He tallied nine touchdowns for  
a total of 58 points, and was  
ranked 17th in the nation in  
that department.

**PLAYING** wingback in the  
Cougars' single wing attack, Al-  
len also led his teammates in  
the pass receiving department.  
Allen caught only five passes,  
but accounted for 261 yards and  
three TD's for his efforts. He  
also averaged 4.0 per carry in  
35 rushing attempts.

Allen won three letters in  
football while playing for the  
Cougars. He came to BYU from  
Pleasant Grove High School  
where he was an all-state half-  
back for two years.

## Daily Universe SPORTS

### BYU hosts Utah State, Denver in home finale

Brigham Young University's  
youthful wrestling team will try  
to salvage a second place West-  
ern Division finish this weekend  
when they host Utah State Un-  
iversity's wrestlers, Friday at  
2:30 p.m. in the East Gym of  
the fieldhouse.

Saturday afternoon the Cou-  
gars will host Denver in their  
final home meet at 3 p.m.

**INJURIES** still pose a ques-  
tion as to probable Cougar  
starters, but outstanding per-  
formances last week by Lance  
Miner in the 167-pound class  
and Lynn Mullenau in the 191-  
pound class show that coach  
Clint Whitfield has some depth.  
Miner and Mullenau, subbing  
two of the four Cougar victories  
in last Friday's 20-14 loss to  
the University of Utah.

Miner poked up BYU's first  
individual win of the evening  
with an 11-9 decision over  
Utah's Max Reese, and Mullen-  
au outpointed Bob Steckman  
of the Utes, 7-1.

**JIM JORY** (177) decided  
Rainer Prawitt, 8-2, and Cougar  
heavyweight Steve Goodsell  
won his 13th consecutive match  
without a defeat by completely  
mastering and pinning Utah's  
Joe Toome in the time of 5:55.  
The Cougars, if they are to  
repeat on their 22-14 victory ov-

er the Aggies two weeks ago,  
are going to have to come up  
with some point getters in the  
lighter weights.

**THE WAY** things look now,  
Cougar starters should be as  
follows: 115, Drew Laude; 123,  
Richard Scott; 130, Sherd Dun-  
can; 137, LeGrande Smith; 147,  
Leroy Davies; 157, Lance Miner;  
167, Jim Jory; 177, Dave Hand-  
ley; 191, Lynn Mullenau and  
heavyweight, Steve Goodsell.

#### Gymnasts resume play

Brigham Young University's  
gymnastics team will return to  
intercollegiate competition this  
weekend after a long lay-off.  
Coach Rudy Moe and his squad  
left for Colorado Springs Wed-  
nesday to compete in a trian-  
gular meet with the United  
States Air Force Academy and  
Los Angeles State College Sat-  
urday.

**THE COUGARS'** last com-  
petition was nearly a month ago  
when they battled Colorado  
State University to a 36-56 tie  
on Jan. 27.

**MOE** is expecting points  
from such stalwarts as Evan  
Arthur in free exercise, Rich-  
ard Snow on the trampoline  
and Lynn Bjorkman on the  
side horse.

## Seniors to attend special meet

All graduating seniors will be excused from their 10 a.m.

## Registration ends

Late registration of students will end on Friday.

No student unless he has just been released from a mission or active duty with the Armed Forces may re-enroll after Friday, according to Donald T. Nelson, registration officer.

Registration for second half block classes must also be completed by Friday at 5 p.m. Mr. Nelson explained that students registering late are required to pick up a change of registration card at the registration area in the Student Administration Bldg.

They then must have their instructors, advisers, and dean sign the cards. After paying a one dollar fee at the cashier's office, Administration Bldg., Students should return the card to the registration area where the staff will finalize the registration, said Mr. Nelson.
